the definitive pioneering blueprint covering the what why and how of the
blockchain blockchains are new technology layers that rewire the
internet and threaten to side step older legacy constructs and centrally
served businesses at its core a blockchain injects trust into the network
cutting off some intermediaries from serving that function and
creatively disrupting how they operate metaphorically blockchains are
the ultimate non stop computers once launched they never go down
and offer an incredible amount of resiliency making them dependable
and attractive for running a new generation of decentralized services
and software applications the business blockchain charts new territory
in advancing our understanding of the blockchain by unpacking its
elements like no other before william mougayar anticipates a future that
consists of thousands if not millions of blockchains that will enable not
only frictionless value exchange but also a new flow of value redefining
roles relationships power and governance in this book mougayar makes
two other strategic assertions first the blockchain has polymorphic
characteristics its application will result in a multiplicity of effects
second we shouldn t ask ourselves what problems the blockchain solves
because that gives us a narrow view on its potential rather we should
imagine new opportunities and tackle even more ambitious problems
that cross organizational regulatory and mental boundaries drawing on
34 years of technology industry experience as an executive analyst
consultant entrepreneur startup mentor author blogger educator
thought leader and investor william mougayar describes a future that is
influenced by fundamental shifts brought by blockchain technology as
the catalyst for change william mougayar has been described as the
most sophisticated blockchain business thinker he is a blockchain
industry insider whose work has already shaped and influenced the
understanding of blockchain for people around the world via his
generous blogging and rigorous research insights he is a direct
participant in the crypto technology market working alongside startups
entrepreneurs pioneers leaders innovators creators enterprise
executives and practitioners in addition to being an investor advisor
and board member in some of the leading organizations in this space
such as the ethereum foundation openbazaar and coin center just as
the internet created new possibilities that we didn t foresee in its early
years the blockchain will give rise to new business models and ideas
