the theme of this volume presented in honour of g w m harrison whose academic contributions have enriched our perspective of roman crete is change and transition a topic that challenges some of the earlier approaches to hellenistic and roman crete and which presents a different perspective on historical events and archaeological evidence

legal realism is a powerful jurisprudential tradition which urges attention to sodal conditions and predicts their influence in the legal process the relatively recent sodal science in the law phenomenon in which sodal research is increasingly relied on to deduce court cases is a direct result of realistic jurisprudence which accords much significance in law to empirical reports about sodal behavior the empirical research used by courts has not how ever commonly dealt with language as an influential variable this volume of essays coedited by judith n levi and anne graffam walker will likely change that situation language in the judicial process is a superb collection of original work which fits weil into

the realist tradition and by focusing on language as a key variable it establishes a new and provocative perspective on the legal process the perspective it offers and the data it presents make this volume a valuable source of information both for judges and lawyers who may be chiefly concerned with practice and for legal scholars and social scientists who do basic research about law

viewing the medieval period as an era of constant change rather than as a monolithic whole Robert S. Sturges examines a wide variety of English and French literary works within the cultural contexts of the early and late Middle Ages. Sturges analyzes these medieval works in roughly chronological order thus providing a sense of historical change within the general period. Seeking to discover which critical methods best serve each work he also compares medieval with postmodern approaches to interpretation pointing out of course where current critical practices do not apply. Examining the *Chanson de Roland* and Chrétien de Troyes' *Charrette* Sturges reveals how belief in an indeterminacy of literary meaning grew between the 12th and 15th centuries. He argues that whereas the earlier Middle Ages' Neoplatonic cultural context produced the directed vision of the early genres *Chanson de Gest* and *Saint's Life*, changes introduced in the 12th century and later allowed a second vision to emerge supplementing rather than replacing the Neoplatonic view. This new mind set emphasized a multiplicity of possible literal meanings in the world and in language; authoritative truths no longer could be revealed through allegorical interpretation. In his second chapter Sturges compares Chrétien de Troyes' *Conte del Graal* with the *Queste del Saint Graal* to counterpoise the levels of interpretation required by allegory against the potential multiplicity of literal meanings possible when interpreting nonallegorical works. Chrétien de Troyes he notes rejects allegory in favor of ambiguity. Chapter 3 compares Marie de France's *Lais* with Machaut's *Voir Dit* making an analogy between the erotic activity of the represented lovers and the reader's interpretation of the literary works. Sturges points out that by the 14th century semantic indeterminacy in love and in reading was expected conventional

and enjoyable still both Marie and Machault suggest the dangers of uncertainty in human relations if true knowledge of the other lover or text is impossible how can we communicate in his fourth chapter Sturges examines the book of the Duchess Troilus and Criseyde and the Wife of Bath's tale to determine how at various points of his career Chaucer responded to the essential question how can any truth be communicated among people or between texts and readers chapter 5 approaches such questions of truth and communication from the perspective of alterity and historical understanding in both *La Mort le Roi Artu* and the final sections of Malory's *Mort d'Arthur* two works that present themselves as works of history yet the ambiguity introduced from 13th century romance on through the 15th century undermined the historical foundation such works rest on Sturges considers four centuries two nationalities and the genres of verse and prose romance allegory Breton lay dit dream vision and frame story he convincingly applies his study of medieval literature to issues vital to 20th century literary theory issues ranging from the interplay of speech and writing to the reader's role in the production of meaning

this book is based on award winning research that analyzes transcripts of intrafamilial child sexual abuse trials building on the contemporary focus of legal trials as hegemonic sites of storytelling from the perspectives of dominant interest groups the argument is developed in three steps the first documents the development of a de facto relationship between law and psychiatry that simultaneously silences and blames victims of sexual violence and advances a critique of law as narrative the second presents a detailed critical feminist reading of six trials that are presented as textual case studies these show the legal mechanisms through which victim survivor's accounts of abuse are transmuted into forms that facilitate the legal and theoretical acquittal of the alleged abuser and replicates at symbolic and structural levels those power relations inherent in the original abuse the final step in the argument analyzes and synthesizes the structural and thematic patterns in the case studies to show how trials enact a narrative template that maintain a

patriarchal status quo around intrafamilial child sexual abuse
